

It's time to get back outdoors!

LOW SEASON

**School Trip
Residential Packages
UK Wide**

There are so many advantages to taking your next school residential trip during the coming **LOW SEASON** months (October to March). Find out why an ever-growing band of schools are reaping the benefits of travelling outside of the traditional high season months.

We understand money is tight for parents just now but also recognise the benefits to learning that children take away from learning outside of their classroom environment. So, with this in mind why not take your next visit during the coming low season:

- **Greater availability** – secure the dates that best fit with your school calendar
- **Reduced costs** – lower season means lower costs but whilst keeping the high quality.
- **Weather? – not a problem!** We can't predict the UK weather in any season, and all our packages have poor weather options available at whatever time of year you travel
- **Being more inclusive** – taking a low season package may mean that some children who might not have been able to attend when costs are higher, may now be able to take part
- **Avoiding the crowds** – travelling in the quieter months generally means there are fewer other people around which makes for a peaceful and quieter visit.

Get the same high quality school trip at a significantly reduced cost by trying a quieter time of year.
